

Project - 90

Some Real World Problems

Problem - Solution

- 1) Trash is being dumped into water bodies and in public places - Arrange more dustbins near you or carry the trash in a cover, paper etc and dispose in dustbin.
- 2) People lose slippers/shoes when they go to temples - Leave your shoes/ slipper at home or in a vehicle.
- 3) More Sreentime - Maintain a timetable
- 4) Frequent power cuts - A back up power generator.
- 5) Stress due to work - Music, sleep or ~~any~~ watch pleasant videos.
- 6) Increase in temperature - Plant more trees
- 7) More usage of books resulting in cutting down of more trees - Recycle the old books, paper and magazines
- 8) Going to stores and shopping consumes more time and petrol/diesel cost - Go to near by stores or online shopping

9) Size problems of clothes - Return policy in online shopping

10) Crowd at vegetable, meet market - Online food apps / online grocery apps
Ex- meet on, Licious, Big Basket.

• The 7th, 8th and 10th problems can be solved using technology.

→ 7th problem's solution - We can even find online books and can write in our devices.

→ 8th problem's solution - Online shopping apps such as Flipkart, Amazon etc are available.

→ 10th problem's solution - Many online grocery apps have been created.
